

Information Security & Cryptography

10/02/25

1. Briefly describe about various types of cipher.
2. Briefly describe about various types of attack.
3. Active vs Passive attack.
4. Briefly describe about various types of key.

11/02/25

1. Why RSA algorithm is so strong?
2. Briefly describe about RSA algorithm with suitable example.

24/02/25

1. Briefly describe about Robin Crypto System.
2. Briefly describe about ELGAMAL Crypto System with suitable example.

25/02/25

1. Types of model cipher text. (Short note)
2. Current 10 new attack topic. (Short note)

04/03/25

1. Briefly describe about DES.
2. Write short note on DES Function.
3. Write short note on Expansion D-Box.
4. Write short note on S-Box.

13/03/25

1. Briefly describe about various data unit of AES.
2. AES vs DES.

22/04/25

CHAPTER- 5 & 6

1. Short note on:-
 - a. MD5
 - b. SHA
 - c. Message Authentication Code
 - d. HMAC
2. MD5 vs SHA
3. Briefly Describe SHA.
4. Symmetric Key vs Asymmetric key
5. Short note on:-
 - a. Digital Certificate
 - b. OCSP
 - c. SCVP
 - d. OCSP vs SCVP

- e. PKIS Architecture
- f. PKCS
- g. XKMS
- h. CSSV
- i. SSL
- j. SET
- k. TLS
- l. SSL vs SET
- m. 3D Secured Protocol
- n. PEL
- o. PGP

CHAPTER - 7

1. Short note on:-
 - a. Biometric authentication
 - b. Kerberos
 - c. KDC

CHAPTER - 8

1. Short note on:-
 - a. JCA
 - b. JCE
 - c. Fire wall
 - d. ESP Protocol
 - e. IKE Protocol.
